Florida's Top Design Talents

**BEST USE OF COLOR
& WINNERS IN 40+ CATEGORIES**

Contemporary Study or Office

ADRIANA HOYOS DESIGN STUDIO

Home Work

"This is a modern, sophisticated, arty house located in the most prestigious area of Weston," says designer Adriana Hoyos. "The architecture of the house allowed us to play with the creativity of finishes in various areas, including the home office, which is subdued in its approach to design. Here, as throughout other areas, we introduced a mix of high-quality Italian, American, Canadian, and South American furniture and accessories, a move that worked better than we expected." adrianahoyosdesignstudio.com

Contemporary Kitchen

ADRIANA HOYOS STUDIO

Modern Elegance

“For this project in Oak Park, Davie, the clients’ requirements were for an edgy, sexy, and elegant space,” says designer Adriana Hoyos. “In the kitchen we accomplished that with the waterfall of lights above the island, which strikes a balance with the house’s 20-foot ceilings. The matte black pendants were specifically installed to stand out against the taupe and gray colors that were chosen.” adrianahoyosdesignstudio.com

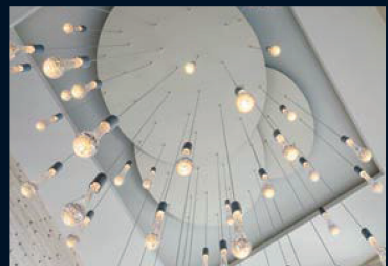

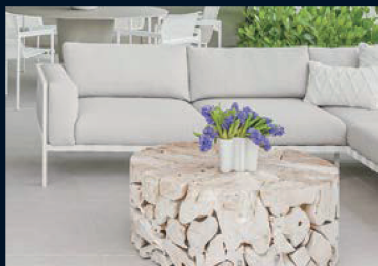

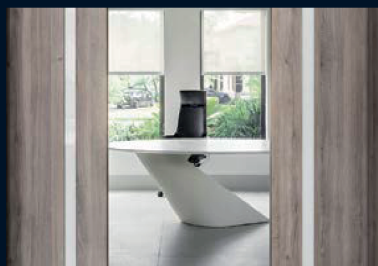

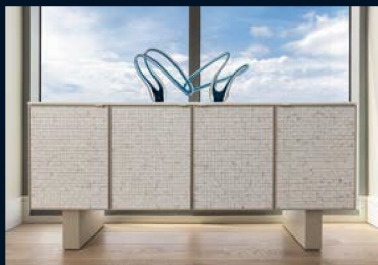

Contemporary Dining Room

ADRIANA HOYOS STUDIO

Dinner Divine

“One of these homeowners’ favorite brands is Hermès, so for this Pinecrest residence I added an equestrian flourish by incorporating chairs with leather upholstery from my own brand in the living room,” says designer Adriana Hoyos. “The live-edge dining room table is hewn from Brazilian wood, the chandelier above it is mirrored glass, and the walls are a patterned stone. The couple scrapped plans for a fireplace, opting instead to turn a nearby nook into a decorative shelf.” adrianahoyos.com

FLORIDA DESIGN Seaglass AWARDS

Talk about star quality! *Florida Design's* inaugural Seaglass Awards honor just about every aspect of the state's superior design industry and salutes the talent behind the scenes. From inspiring architecture and glorious gardens to use of color and ingenious wine rooms, here's a look at the captivating projects that caught our eye over the past year.
